Construction	Traditional woven Wilton
Pile type	Cut and Loop (High Cut/Low Loop)
Yarn content	51% Wool loop pile / 49% Viscose cut pile
Pitch	30 per dcm
Rows	31 per dcm
Pile height	Cut: +/- 6.5 mm Loop: +/- 5.0 mm
Total carpet thickness	+/- 8.5mm
Total pile weight	+/- 2750gms/m ²
Total carpet weight	+/- 4250gms/m ²
Backing fibres	Jute and cotton
Back coat	SBR Latex and resin compound
Production width	+/- 4.00m
TOG rating	1.95
Flammability	BS4790: Pass

Colour selection

Due to variations in bulk dyeing, matching may vary slightly from the colours shown in any sample. A stock cutting is available on request. It should be taken into consideration when selecting colours that darker shades camouflage soiling more than lighter shades. This is especially relevant in heavy use locations in both domestic or contract installations.

Surface and visual effects

Certain variances, including linear effects and striations, in the pile surface texture are inherent in all quality wool carpets. To an overwhelming degree, these slight irregularities are due to the fact that wool is a natural material and must be allowed a greater tolerance than synthetic yarn.

Pile crush/tracking

Through use and in time, all carpets will flatten to a certain degree. This is most noticeable in areas of concentrated use. We cannot accept responsibility for complaints caused by these effects which are not manufacturing defects.

Installation

This is a specialist product and should only be installed by professional carpet fitters. We recommend the installer is provided with a sample of the selected carpet, to ensure they are familiar with the product type and can advise on its suitability for the intended location and the proposed installation method. Specific considerations must be given when planning the use of this carpet on stairs. All aspects of sub-floor preparation and installation should be in accordance with BS5325/2001. As with all carpets of this construction, we are unable to guarantee an exact width-to-width pattern match. Additional technical information and advice is available upon request.

Area rugs

This collection can be supplied, made to specific dimensions, as finished rugs or runners, bound with either linen, leather or faux suede tapes. Carpet borders, using a contrasting colour from this range can also be used as an edge for rugs or runners. Further details are available on request.

Cleaning and maintenance

A comprehensive cleaning guide is available free of charge upon request. Not suitable for wet cleaning.

Tolerances

All specifications are subject to normal manufacturing tolerances. Wool Classics reserves the right to modify carpet specifications without notice, where performance is not affected.

All information provided above and technical advice, whether verbal, written or by way of trial samples is for guidance only and is submitted in good faith, but without warranty, since the skill of installation and site conditions are beyond our control. The end user should be provided with a copy of the above.

New Range board to be launched in 2009.
